

2025 AUSTRALIAN RANKING GUIDELINES

BLIND & LOW VISION

OVERVIEW

The Blind and Low Vision (BLV) Australian Ranking is the mathematical method of ranking Australian tennis players who are blind or have low vision on a calendar year basis. The Australian Ranking is the objective merit-based method used for determining qualification for entry and seeding in some tournaments for singles and doubles. BLV Australian Rankings will be effective as of 1 January 2025.

1. ELIGIBILITY

Australian citizens and permanent residents who have participated in a BLV Australian Ranking event after 1 January 2025 and satisfied the point accumulation requirements (outlined in section 8) are eligible for a BLV Australian Ranking. Players with an overseas citizenship who are competing in Australia must provide evidence of Australian permanent residency status to Tennis Australia before being eligible for a BLV Australian Ranking.

Players must meet the appropriate classification eligibility requirements to be eligible for a BLV Australian Ranking (refer to section 2 (a)). There are multiple sport classes and divisions of competition, and each will have its own ranking table. Players may be eligible to compete in more than one sport class across different tournaments (due to classification or players choice) and these points will be combined. Please see section 7 for more information on sport class.

2. CLASSIFICATIONS

- (a) Player's must be eligible according to the Tennis Australia classification guidelines. If unsure, please visit the [Tennis Australia](https://www.tennisaustralia.com.au) website for more information.
- (b) If a player's sport class (classification) changes throughout the year any points earned in the now ineligible sport class will carry over to their new sport class.

3. RANKING CALCULATION METHOD

Each player will have a separate ranking for singles and doubles. A player's BLV Australian Singles Ranking is calculated using the best four (4) singles results over the last 12 months and their BLV Australian Doubles Ranking is calculated using their best four (4) doubles results over the last 12 months:

The official BLV Australian Ranking system works on a 12-month rollover system – calculated by players' total points in the preceding 12 months from when they first obtain a BLV Australian Ranking. Once this 12-month period expires, acquired points will cease to contribute to a player's BLV Australian Ranking.

e.g. Player A is a finalist in the Australian BLV Tennis Championships in July 2024 and acquires 225 BLV Australian Ranking points. These points will cease to contribute to Player A's BLV Australian Ranking at the beginning of August 2025.

4. RESOLVING TIES

SINGLES

When two or more athletes have the same total number of points, ties shall be broken as follows:

- (a) Whoever finished higher in the most recent event in which both/all players played. If the tie is not broken then,
- (b) The player with the highest number of points from an individual event, then, if needed, the second best, and so on, and if still tied, then
- (c) Drawn by lot by Tennis Australia.

DOUBLES

When two or more players have the same total number of doubles points, ties shall be broken as follows:

- (a) Whoever has the higher singles ranking will be ranked higher in doubles, or
- (b) If both players do not have a singles ranking, then drawn by lot by Tennis Australia.

5. RELEASE DATE

The BLV Australian Ranking is adjusted and updated at the beginning of each month (first Monday of each month). The rankings are published on the [Tennis Australia](https://tennisaustralia.com.au) website. It is the players responsibility to check that their ranking is correct. Any perceived anomalies, incorrect spellings, change of address/date of birth or queries regarding the rankings should be emailed to blindtennis@tennis.com.au. Any such email must be received no later than seven (7) days after the applicable release of the updated Blind & Low Vision Australian Ranking. After this time, amendments will not be made until the next BLV Australian Ranking is released.
